

ORMSC

Agenda for Meeting of Wednesday, June 24, 2009 at 0730 hrs.
San Jose, Costa Rica

We continue to work on finalization of the MDA Foundation Model. The current working draft is filed on the OMG server as document ormsc/09-03-02. Action Items against this draft are recorded in the minutes of the last meeting, document ormsc/09-04-01.

In Costa Rica, we'll review and discuss resolutions to the Action Items, and any other last-minute suggestions for the FM document. It's too late to take a draft to the AB at this meeting, but we'll try to schedule completion before the San Antonio meeting in September.

We'll also vote to accept the minutes of the March DC meeting.

Jon Siegel, OMG
Convenor, ORMSC
