

OMG Liaison AB Agenda – Arlington VA, USA
March 24, 2008

Chair: Tom Rutt - Fujitsu

1. Administrivia (agenda bashing, attendance, announcements, approval of minutes from the Santa Clara Meeting [liaison/2008-12-01]).

2. Disposition of Action Items:

- * [SMSC] Provide the list of OMG document numbers to publish as MOF and XMI aligned with UML 2.1.1 (with associated support files). – still waiting for RTF output

- * [Tom Rutt] Develop MOF/XMI Version 2.x explanatory report. – waiting RTF output

- * [Elias Kendall / Evan Wallace] Produce draft ODM Explanatory Report. – RTF completed – waiting draft explanatory report.

- * OMG Staff to Work with Tetsuo Kotoku to investigate establishment of a liaison relationship with ISO TC184

- * Don and OMG Staff to investigate a new liaison with LISA. – Still open

- * OMG Staff to investigate a proper ISO home for future UPDM progression – need to await finalization of the RFC before working on this action item. – Still Open

- * Jishnu will work with Joel Fleck to have him give a presentation on Autonomic Computing Forum to an appropriate set of Task Forces at a Future OMG meeting.

3. Reports of existing liaisons

3.1 TC37 Liaison Report

When will OMG be ready to send a version of SBVR to TC37 for a fast track ballot.

3.2 SDR Forum

4. Review of new and potential liaisons

- o FIX Protocol Limited (FPL) – OMG signed an MOU. Nothing to report at this meeting.

- o ISO JTC1 / SC25 - INTERCONNECTION OF INFORMATION TECHNOLOGY EQUIPMENT – They are seeking liaison with OMG.

- o ISO JTC1 / SC36 – SKILLS – They are seeking liaison with OMG

- o ISO TC184 / SC02 – ROBOTICS

- o ISO TC184/ SC04 – Industrial Systems –they are working on a new architecture, and are interested in a future joint meeting with OMG.

- o [Donald Chapin] The Open Group's Business Architecture WG

- o LISA

5. Review of Plans For Standardization

- o CORBA 3.1 – JTC1 SC07 Ballot underway
- o UML 2.1.2 – JTC1 SC07 Ballot underway
- o CWM – Electronic Ballot Resolution group progress with CWM RTF
- o MOF and XMI – still waiting for RTF output
- o KDM – OMG KGM V1.1 JTC01 ballot in SC07 closing in March – US comments “the terms it uses should be aligned with those STDs already in use in JTC1 for same subject matter. In particular the terms and concepts of ISO 12207, 15289, and 42010.” RTF needs to initiate work to resolve these comments
- o ODM – waiting for OMG second FTF output finalization, and preparation of Explanatory report.
- o SBVR – waiting for RTF output for a document to submit as fast track ballot.

6. Any other business arising

7. Close of meeting
