Mathematical Formalisms DSIG

Object Oriented Standards for Relational Frameworks

Working Session, Boston OMG TQM

9:00 – 10:00 am, 19th June 2014

Prof C.E. Dickerson

Chair, Mathematical Formalisms DSIG

Principal Investigator, Theme 1

Programme for Simulation Innovation

Loughborough University

Agenda

09:00   Review of DSIG Charter and objectives for re-starting work

09:15   A brief technical overview and summary of legacy work
- Royal Academy Chair of Systems Engineering research
- Industrial and strategic national government partnerships
- Framework for Virtual Design and IV&V
- What is Relational Orientation?
- Linear Programming as an exemplar

09:45   Discussion of proposed objectives for Maths DSIG

10:00   Adjourn

An overview of published research on relational orientation is provided in the backup slides. The presentation will be posted in the DSIG workspace.
