

Healthcare DTF

March 24-28, 2014, Reston, Virginia

Agenda

Monday, March 24

Morning – Not Meeting

Afternoon

1:00 Healthcare DTF Overview / Projects Overview

This session suggested for anyone with interests in health, or with candidate projects for consideration by the DTF. Informal discussion

4:00 HSSP Teleconference Working Call

Tuesday, March 25

Morning – CTS2 Discussion

9:00 Updates on:

- Review of progress on the CTS2 efforts in HL7
- Status of implementation community / peer coordination efforts
- Progress of PHAST work

CTS2 Strategic Planning

- How to foster marketplace adoption
- Peer support community
- Creating self-education materials
- OMG Marketing support?

10:30 Break

11:00 Sending a Market Message melding SOA and REST Resources (e.g., HL7 FHIR). How do align objectives

Emerging work in HL7, specifically the Fast Health Interoperability Resources (FHIR) is being perceived by the marketplace as the one-stop shop to address all problems. HL7 is receptive as to how SOA services marry into FHIR. This topic will be a discussion on how to realize this, and how to foster guidance to help align these efforts.

12:00 Lunch

Afternoon

- 1:00 Boston Healthcare Information Day – Planning Session
- 2:30 Break
- 3:00 Update on CHiPS Open Source Initiative (healthcare open source toolkit based upon OMG standards)

Wednesday, March 26
