

# Welcome!

## BPM for Government

Karen D. Larkowski  
General Manager, OMG  
Program Manager, BPM-C

# BPM Consortium

The BPM Consortium is an advocacy group and community of BPM Practitioners, visionaries and authorities advocating for the adoption of best practices in Business Process Management across all industries and in government operations.

# Mission - Premise

- ⑩ ➤ A well implemented BPM initiative can lead to greater business agility, faster productivity and improved customer interactions for all stakeholders
- ⑩ ➤ Business and IT Executives must speak the same language and collaborate to realize the highest yielding benefits of Business Process Management.
- ⑩ ➤ In order for BPM to have widespread understanding there must be a vehicle for access to competent, well documented and well communicated information on real-life strategies, best practices and technologies
- ⑩ ➤ Business Process Management can serve as a vital link to incorporate other driving business needs such as performance management, service oriented architectures and sustainability practices

# Understanding of BPM

**Which definition do you think best describes a Business Process Management (BPM) system?**

Advanced workflow system for process management: 39%

Another way to define a Service Oriented Architecture (SOA): 1%

Means for effectively bridging business and IT to improve process flow: 48%

System for managing information between software packages and applications: 5%

Way to define units of work as business processes for management use: 7%
