Today's Announcement

Rational Supports OMG MDA!

Rational and Model Driven Development

◆ Many years ago at Rational...

- Three amigos got together
- Developed UML
- Refined it with partners
- Submitted to OMG for standardization
- Adopted as a formal OMG spec in November 1997

◆ Rational Rose

- (Rose = Rational Object-oriented Software Engineering)
- The UML tool we all love and hate
- Rational has built over 40 UML profiles
 - Some Platform Independent (PIM), other Platform Specific (PSM)
- Rational partners and customers have built another 100+

State of UML

- ◆ 100+ UML books on amazon.com
- ◆ 80%+ universities teach UML classes
- ◆ 40+ UML tools on the market
- ◆ Standards bodies specify in UML
