

## •Highlights from this Meeting:

- Mike Kearney (Aerospace) presented specification plans for the Data Archive Interoperability Working Group of the Consultative Committee for Space Data Standards (CCSDS) a consortium of national space agencies. This work will build on their earlier Open Archival Information System specification. The Space DTF and the US Air Force Enterprise Ground Services effort had expressed an interest in a satellite operations archive specification to provide interoperability and exchange of operations data.
- Laura Hart (Mitre) and Dave Kaslow (INCOSE) presented the draft requirements for a future CubeSat SysML Reference Model RFP.
- Jay Bugenhagen and Dan Smith (NASA) presented the current state of their Command and Control Message Specification (C2MS)

•**Deliverables from this Meeting:**

–None

–

•**Future Deliverables (In-Process):**

–XTCE 1.2 RTF Report

–C2MS RFC

–Cubesat SysML Reference Model RFP

•**Votes**

– None

•**Agenda Items for the Next Meeting (Reston):**

–XTCE 1.2 RTF Report

–C2MS RFC

–Cubesat SysML Reference Model RFP
