Highlights from this Meeting:

- Carrie Wilkie, (GS1 US) presented recent research into the retail industry’s readiness and drivers for adopting replacement of the ubiquitous U.P.C. with a high data density variable data capable symbology.

- John Glaubitz (Vertex) expanded on plan to make Retail Industry Ontology (RIO) a standalone product.

- Furuhata Tadashi (Seiko Epson), Yasumoto Toyohiro (VINX) and Denis Kuniss (Diebold-Nixdorf) concluded how to move forward on all issues in UnifiedPOS RCSD. Voted on new schedules.

- Roland Zalisevskij (Service Plus) presented the progress on the Fiscal API RFP. Working session to clarify transaction types in retail context.

- Building proposal for Micro-Location in Retail RFP to request at Orlando meeting with Vivian Underwood (GS1) and Brian Wells (GS1). The work itself is progressing, need it to be under charter.

- Ron Zahavi (Microsoft) drove progress on the Retail IoT Security Maturity Model. Short list of next steps assigned.

- Claude Baudoin (OMG) clarified work needed on Cloud-in-Retail project, helped form a plan for the work. Ready soon for outreach to volunteer authors.

- Virtual necessity had its challenges but was a success!

- **VOTED** to open UnifiedPOS v1.15.1 for issue resolution, including adding Digimarc symbology.

- **VOTED** to extend Digital Receipt RFP initial submission to Aug 18, 2020 and revised submission to Feb 22, 2021.
TF Meeting Date: March 25 - 26, 2020
Reporting Chair: Andy Mattice
