

# Space DTF Agenda

The XTCE US government Satellite conformance Profile, formerly known as GovSat, adopted by the OMG as XUSP, has gone through finalization and the FTF report will be presented to the Architecture Board at the Austin meeting in September. Work on the XTCE 1.2 Revision Task Force will continue, and a series of examples of GEMS usage will be presented for review by the SDTF. SDTF meeting days will be Wednesday and Thursday of the OMG meeting week. Current SDTF agenda is:

## ***Wednesday, Sept 17***
