Building a Service Oriented Architecture with BPM and MDA® Workshop
Burlingame, CA, USA - October 16-19, 2006

Workshop CD Index

00-01 Workshop CD Index
00-02 Workshop Program Summary
00-03 Complete Workshop Program with Descriptions
00-04 Workshop Demonstration Listing

Monday – October 16, 2006

TUTORIALS:

00-T1 Introduction to the MDA, Unified Modeling Language™ and their Applicability to SOA
Jim Amsden, Senior Software Engineer, IBM

00-T2 Service-Oriented Architecture and Web Services
Don Adams, VP, Chief Security Officer, CTO, Worldwide Public Sector, TIBCO Software Inc.
Rourke McNamara, Senior Product Marketing Manager, SOA, TIBCO Software Inc.

00-T3 Identifying and Planning Services Within Policy Framework
John C. Butler, Chief Architect, Everware-CBDI
David Sprott, Principal Consultant, CBDI Forum

00-T4 Business Process Modeling Notation
Dr. Stephen White, BPM Architect, IBM
Tuesday – October 17, 2006

00-K1  Keynote Presentation
   The Future of SOA: the Industrialization of Software
   Judith Hurwitz, President, Hurwitz & Associates

00-K2  Technical Keynote:
   Bridging the Gaps Between People, Applications and Systems
   Shane Pearson, VP-Product Management, BEA Systems

Session 1: Using BPM and MDA to Establish SOA Throughout the Enterprise and Beyond
   Chair: Fred Waskiewicz, Director of Standards, Object Management Group

01-1  Boeing Global Mobility Systems Case Study: Business Process Governance: A Winning Strategy
   David E. Farrar, Associate Technical Fellow, The Boeing Company

01-2  WDP&R Case Study: Leveraging SOA and MDA to Transform the IT Organization
   Ken Sterling, Manager-Architecture, Walt Disney Theme Parks and Resorts Information Technology

Session 2: Best Practice in Design and Implementation of BPM/MDA/SOA
   Chair: Fred Waskiewicz, Director of Standards, Object Management Group

02-1  Generic BPEL Processes: Integrating Process Design and Execution Based on Generic Reuse and MDA
   Mr. Dirk Staehler, Divisional Director, Opitz Consulting

02-2  Patterns and Techniques for Separating Business Logic in New SOA System Development
   Iyad Jabri, President and CEO, Intelliun Corporation

02-3  The Role of BPM in the SOA Maturity Model
   Meir Levi, CEO, Interfacing Technologies

Wednesday – October 18, 2006

Session 3: Security in Large SOA Systems
   Chair: Fred Waskiewicz, Director of Standards, Object Management Group

03-1  Using BPM to Help Secure your SOA
   Philip Larson, Director of Product Management, Appian Corporation

03-2  WS Security Update
   Hal Lockhart, Principal Engineering Technologist, BEA Systems
Session 4: Standards in BPM, MDA, and SOA  
Chair: Fred Waskiewicz, Director of Standards, Object Management Group

04-1 Business Process Standards  
Jeanne Baker, Lead Program Manager, BizTalk, Microsoft

04-2 Are Current and Future Standards Effectively Addressing Segmentation within the BPM Space and Overlap between BPM, MDA and SOA?  
Karl Treier, CTO, Bluespring Software, Inc.

Session 5: Semantic Aspects and Ontologies  
Chair: Fred Waskiewicz, Director of Standards, Object Management Group

05-1 MDA & Semantic Web Services: Extending the Ontology Definition Metamodel (ODM) to Support Semantic Web Services (e.g., through OWL-S & SWSF)  
Elisa Kendall, CEO & Founder, Sandpiper Software

05-2 Semantic Web Progress and Directions  
Deborah McGuinness, Co-Director and Senior Research Scientist Knowledge Systems Laboratory, Stanford University

Thursday – October 19, 2006

Session 6: Tool Chains: Working a Design from BPM, through MDA, to Implementation  
Chair: Michael K. Guttman, Program Manager, The Voyant Group, LLC

06-1 BPM Implementation with SOA and MDA  
Marc J. Balcer, VP, Product Management, AZORA Technologies

06-2 An SOA Solution Driven from Business Process Models using MDA: Methods and Lessons Learned  
Robert Mitchell, Principal, Inherit, LLC

06-3 A Service-Oriented Approach Dedicated to Internet-based Business Process Networks: Building a MDA-based Collaborative Platform with Open-source Solutions  
Jean-Pierre Lorré, R&D Director, EBM WebSourcing

06-4 BPM Requirements and Standards in the Tool Chain  
Tim Stephenson, Engineer, TIBCO Software, Inc.

Session 7: Case Studies in BPM, MDA, and SOA  
Chair: Meir Levi, CEO, Interfacing Technologies

07-1 Business Service Oriented Architecture at the GSA  
Cory Casanave, CEO/President, Data Access Technologies

07-2 SOA @ Credit Suisse - A Practice Report  
Hermann Schlamann, CTO Private Banking, Credit Suisse Information Technology
